Useful Information

The government have introduced a new incentive for parents to pay on line with the start of the new tax-free childcare. Parents will be able to open a new childcare account. For every £8 a parent pays into their childcare account, the government will pay in extra £2. Parents can get up to £2000 government support per child per year towards childcare costs – that's up to £500 every three months. This money can then be used to pay your childcare provider.

The government has started inviting parents to apply for Tax-Free Childcare beginning with parents of the youngest children first. Check whether Tax-Free Childcare is the best offer for you using the childcare calculator.

Parents will only be able to pay their childcare provider from their childcare account if their childcare provider is signed up to Tax-Free Childcare (BASH is signed up).
